

Bi-Annual NewsLetter of Institute of Business & Technology - IBT

VIBTIAN VISION

An Establishment of GEC Society, A Social & Welfare Wing of Noman Group

Vol: 15.1

EDITORIAL

DEAR IBTians,

Assalam-O-Alaikum

The IBTian's Vision '15 is at your disposal covering all the curricular and extracurricular activities and events that have been conducted recently. This IBTian's Vision symbolizes the very compendium of what IBTians aspire for, their hard work, creativity, and the sense of achievement.

It is immensely satisfying that the issue is primarily contributed by the IBTians and is a showcase of the literacy skills of our students. I am sure you will have a good read.

Best Regards,
Hammad Tahir

A mega event named BASH was hosted at IBT main campus by IBTians on November 29, 2014. Students from all the campuses gathered to attend and to participate in this event. Persons from renowned organizations and students from various schools, colleges and universities were also present. Students and professional dancers gave various mind blowing performances and demonstrated their talents. The finale was capped by a rocking concert which featured Naeem Abbas Rufi, along with other famous singers and celebrities whose performances made the night colorful with their rocking performances with mesmerizing fireworks.

Despite the hectic schedule of the students, IBT organized a Fashion carnival event on 28th February 2015 to surpass all the exhaustion of the students. The stage was set, the models were ready, the guests and students were excited, and the music was geared up to welcome all the models on the ramp. The event gave the students a view of national and international fashion trends to follow and enhance the designs and their creativity. This glamorous and enchanting night was a mixture of fashion and a carnival in which many prestigious and known brands such as YELLOW, THE LUCK, DOLA MU, SAFOOR, EDGE, OWAIS QAMAR, TOP LADY, WALIBRICAL, SFAY & KALDI and IBT's Vestire to showcase their products in the spot light.

Drones Saves Lives! "Drones for Good"

Needless to mention here that therefore the fore-mentioned fields are using drones for "good-thing". Now, where to go from here? Will drones replace the vehicles? Will the drones have artificial intelligence? These news have been, in rumors, but seems to have a kind of possibility, I would say. Peter Diamandis wrote in Forbes "drones might be as tiny as housefly". They might be used for personal-security when the children go out or they might be used for pollination of flowers, and in fact, they might become so microscopic that they can be used for medical surgeries by travelling through the body. Isn't that amazing? But, in my personal opinion, all of the above possibilities discussed will not materialize because of so many concerns of the people. Well, this is just the beginning; let us hope that drones will always be used for "good" rather than for destruction purpose.

The forgetful beast

If I had a heart God, said the beast,
I'd be called kind; not wild in the least.

Abhorred by the thorns of the garden,
The book of life is fate but typewritten.

If I'm not the solicitor of my own deeds;
Who claims the right to assign me breeds?

If you call out your pardon in the Garden of Eden,
I grant you a heart in place of the fruit forbidden.

I shan't farewell but with pride and goodness
A derelict, a mystic and an allayed accomplice!

Till sweet is my heart and all fruits are rotten,
I tuck in this last one and all is forgotten.

Cleaning Drive

Sixty Five zealous students of the Institute of Business & Technology (IBT) from different departments and classes woke up early on Sunday December 14th, 2014 to clean the area and paint the walls.

After the drive all people in Press Club praised the students for their amazing work. One member of press club said "It's good to see the young generation to work for this Nobel cause to clean our city and paint it neatly. The citizens of Pakistan should appreciate and do the same." Media coverage was available to cover these enthusiastic efforts of students. IBTians further nominated more universities for this challenge as IBTians think this cause should never stop.
